The program installation starts

Click Finish

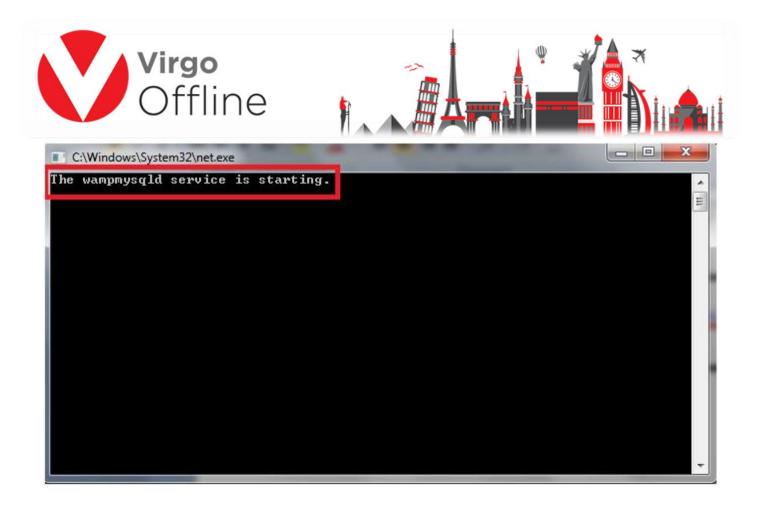

Run Program for the first time:

We have to choose "Run as administrator "then click **OK** to the confirmation message that will appear

Then click **Ok** to install and create MySQL service database

Error			×
	MySQL Server is Do you want to ir	not available. Istall MySQL s	service ?
	No	ОК	

A black window will appear "The wampmysqld service is starting" for while then will automatically close and finish

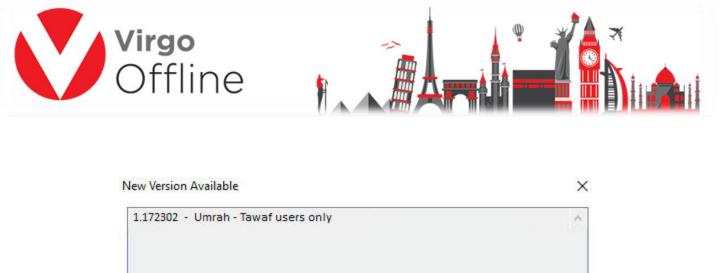

A confirmation message will appear

"Do you want to add MySQL Server to your firewall?"

Choose Yes

If you see a message that a new program update is available, a download button is pressed to download the latest version or we can ignore the update by check box shown on the screen and click the OK button
